

**LPPF-P** is a projecting flag sign in a portrait configuration.

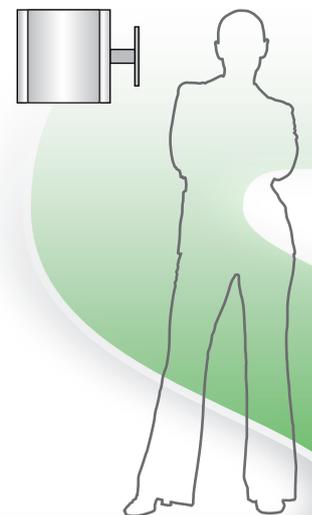

This is a curved triangle shaped double sided sign with top and bottom anodized aluminum machined end caps attached to Leader Prestige profiles, which are projected out of a mounting base plate with specially designed silver polished brass spacers. This design creates a unique appearance.

The LPPF-P is available in four widths: 124, 168, 230 and 320mm with endless height options.

All presented height options are commonly used sizes; however, customized heights are available upon request.

The Leader prestige features unique rounded micro snap side profiles, allowing a fast and simple insert change without compromising its elegance. The side clips are offered in 5 spectacular colored anodized finishes: Silver, gold, black, red, and blue.

The LPPF-P features a unique mounting technique. The base plate and the sign unit are locked together using special cylindrical spacers that conveniently allow the base plate to be installed separately.
